# COP Plate 450 200

Installation Guide

Ref No. 453 862 (GB) Version 2

Introduction

Memcom COP accessories can speed up the installation of the Memcom system, and reduce any required alterations to the COP.

450 200 is a stainlees steel COP plate, with an integrated speaker and microphone and call placed and call acknowledged pictograms. Using this plate would remove the need to cut out holes for a grill and/or pictograms. It will remove the need to plan where a speaker or microphone is positioned in relation to the grill.
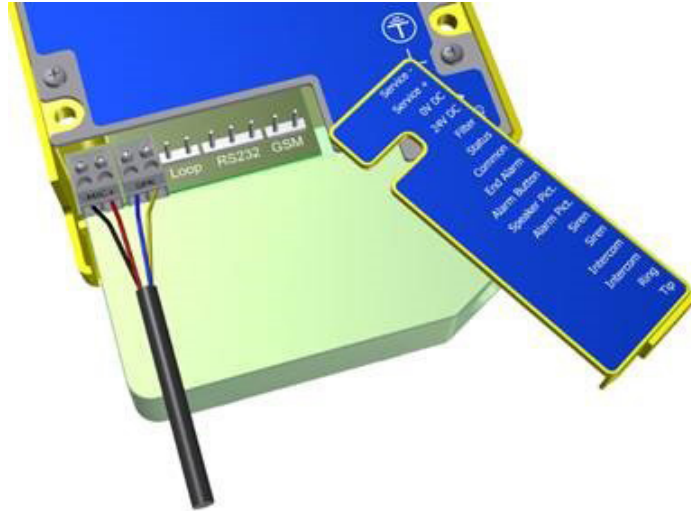

Connections to the Accessory

The cabling that comes with this accessory includes a pre-connected terminal block that is alread wired into the COP Accessory
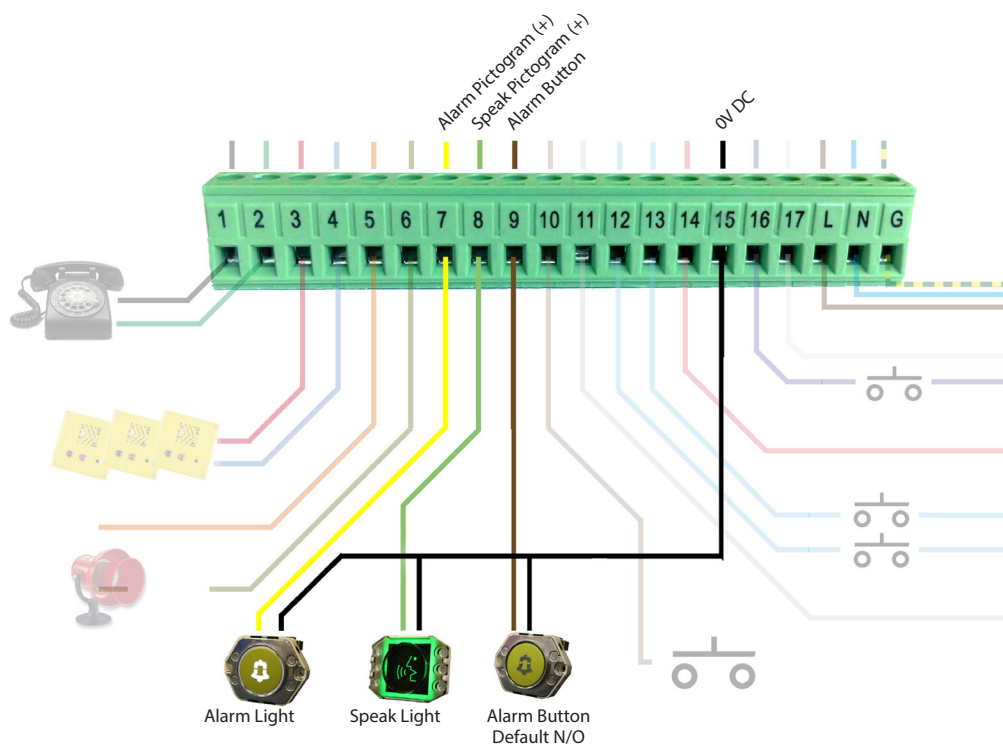

An alarm push button can be wired to the blue and white wires that come of this accessory.
